The \texttt{a5comb} package\footnote{This manual corresponds to \texttt{a5comb.sty} v. 4, dated 21 May 1992.}

Mario Wolczko
\texttt{mario@acm.org}

21 May 1992

The \texttt{a5comb} package sets page layout to A5 size, with equal spaces to left and right, and twice the amount of centre space (for comb-bound documents) and top : side : bottom space = 2 : 2 : 4. See also \texttt{a5.sty}, \texttt{a4.sty}. The layout is based on ratios suggested by Dick Wakefield.
